About Me

I am a 3rd-year student majoring in information technology, with the current goal of being able to acquire and improve my knowledge and experience. I am always trying to explore and learn new things. Personal qualities: Learning ability, sense of responsibility

While studying at school, I trained myself with the following skills:

- Proficiency in HTML, CSS, JavaScript (ReactJs)
- Understanding in JavaScript, including DOM manipulation and the JavaScript object model
- Proficiency with RESTful APIs
- Use of source code management tools: GIT
- Ability to learn and apply new technology

Work experience

Team work experience

Be active in the school club

- ...

📇 Projects

Chat App
(04/2023)

Client	Personal project
Descriptions	Application that helps many people message each other, create private chat room
Number of members	1
Position	Development Frontend and Backend
Responsibilities	Development Frontend and Backend
Technology in use	- Frontend: HTML, CSS, SCSS - Backend: NodeJS, ExpressJS, Socket IO - GitHub: https://github.com/truongthai2409/chatApp-ExpressJs

Student Manager
(4/2023)

Client	Personal project
Descriptions	Student management support Store project on MySql Workbench database
Number of members	1
Position	Development Frontend and Backend
Responsibilities	Development Frontend and Backend
Technology in use	- Frontend: HTML, CSS, SCSS - Backend: NodeJS, ExpressJS, MySql Workbench - GitHub: https://github.com/truongthai2409/Student_Manager_ExpressJS

Fashion store manager
(11/2022)

Client	This is a software engineering project at the university
Descriptions	Integrated software at fashion stores, helping store management with technology solutions
Number of members	3
Position	Frontend Developer, Tester
Responsibilities	- Dividing tasks among members - Build frontend, Test authentication login,...
Technology in use	- C#, Windows Forms, MicrosoftSQL - GitHub: https://github.com/tripm1405/ByCotton - Demo: https://www.youtube.com/watch?v=c6dXAsPCNkg&t=18s

Mini Project WeatherApp

(11/2021)

Client	Personal project
Descriptions	Wheather app gives you weather information in the area you want to search
Number of members	1
Position	Frontend
Responsibilities	Developer
Technology in use	- Frontend: Web HTML, CSS JavaScript. - Call API - Demo: https://truongthai2409.github.io/weatherApp/

Mini News Sites

(10/2021)

Client	Personal project
Descriptions	1 newspaper page
Number of members	1
Position	Developer
Responsibilities	- Build frontend
Technology in use	- Frontend: HTML, CSS - Demo: https://truongthai2409.github.io/unitop/
